

"Coversure Kennington takes training very seriously and encourages team members to take exams for which the company pays for"

**Mike Navaratnarajah**  
**Cert CII – Insurance Advisor**

"When I join Coversure my practical knowledge in insurance was specified only for motor and taxi insurance. This company gave me opportunity to expand it in larger area, now I am becoming professional adviser."

Coversure Kennington place emphasis for its good advice, good customer care, enthusiasm in every single bit what they doing and with people at office makes great place to work and have fun in one."

**Monika Pik**  
**Trainee Insurance Advisor**

"Another exciting day at Coversure Kennington to mark the incredible success in the month of March when our team achieved the premium collection target. The team celebrated the event with a day trip in Paris. It was a bright Saturday morning when we reached Paris with Eiffel Tower elegantly shinning in the sun. We watched beautiful sculptures, appreciating French architecture at its best. Afternoon lunch was at an exquisite restaurant facing Eiffel Tower accompanied with loads of fun time. It was one the memorable events that we all cherished. It motivated the team to break all barriers and achieve much better targets going ahead."

**Insurance & Claims Administrator**

"Working is a part of our normal life. Treating clients fairly, in a professional way and meeting their needs is what we like and do - thanks to them and our hard work we were able to visit one of the most amazing cities in the world – Paris!

The weather was on our side too. Sunny, feeling free, full of hope, the Coversure team stand proud on the historic City. Eiffel Tower, Avenue des Champs Elysees, Place de La Concorde, Museum De Louvre, Notre Dame and many more. What was even better is that some of these places you can visit walking. French people in themselves were kind and relaxed so we gave them back the same.

Tourists exploring the city, restaurants fully booked and people everywhere from dusk until dawn. You needed to be there to see it and feel it and it's unbelievable that the Eurostar train took us so quickly to this beautiful city.

I would like to say that not a lot companies give this opportunity to take our partners too, so what we wish for is more success!

We are looking forward to hit another target and explore next place in the world!"
